

## ICT EQUIPMENT AND LEASING SERVICES

### Background

Strømme Foundation (SF) is an international Development Organization headquartered in Kristiansand, Norway with a global footprint in 9 countries in the regions of West Africa, East Africa, and Asia. SF is committed to empowering people to overcome the root causes of poverty through its thematic focus on Education, Livelihoods, and Job creation. SF aims to realize its vision of “**a world free from poverty**” through long-term partnerships with local organizations.

### Objective

The main objective of this prequalification is to find suitable, qualified, authorized, and reliant service providers to work with for the next two years. SFU expects that the suppliers should be able to supply quality equipment on time and have the flexibility to manage equipment on warranty.

### Scope of Work

The vendor will be responsible for the following tasks:

- Supply and deliver the ICT equipment as per the specifications and quantities provided by the SFU.
- Install and configure leased ICT equipment at SFU.
- Provide maintenance and technical support for leased ICT equipment, including troubleshooting, repairs, upgrades, and replacements within a day.
- Lease the ICT equipment and software to the SFU for two years, with an option to renew or terminate the contract at the end of the term.

### Eligibility Criteria

- The supplier must be an authorized Lenovo Partner, HP GOLD, or Silver Partner.
- The Supplier Must be able to supply without initial deposits and invoice later for payment.
- the supplier must be authorized to supply the ITEMS detailed in the Technical Specification section below for Categories not explicitly defined here.
- The Supplier must have been in business for at least five years.
- The supplier must be able to deal with equipment that fails during the warranty period without hesitation.
